Property Tax Manager

Instructions:

The Oregon Business Development Department form available as prescribed by law, so receiving a Strategic Investment Program exemption can report employment and other data. It pertains to any SIP project with exempt property in the most recently completed tax year, whether based in a strategic investment zone (SIZ) or not. In addition to program analysis and evaluation, the data serves to inform the calculation of state personal income tax revenue arising from the SIP project. Respectively, in the case of exemptions beginning in or after the 2008-2009 property tax year, the Oregon Department of Administrative Services will estimate and distribute 50 percent of that revenue to local governments.

For further information and explanation in using this form, please feel free to contact:

Incentives, *Business Oregon*
 Phone: 503-986-0123,
 toll-free: 866-467-3466,
<http://www.oregon4biz.com/>

This annual report, due on or before April 1, corresponds to the tax year that concluded on June 30 midway through the preceding calendar year. Therefore, by way of example, for an exemption received in the 2009-2010 tax year running from July 1, 2009, to June 30, 2010:

- Business Oregon must receive this report no later than April 1, 2011, to avoid revocation of the exemption.
- If the SIP exemption began in the 2008-2009 tax year, then the corresponding tax year would be 2 out of 15.
- The property value/taxation figures do not relate to the most recent assessment or tax billing (for 2010-2011), but rather the one more than a year earlier. As needed to confirm such figures, please contact the county assessor.

The investment encompasses all property acquired, constructed and so forth since submission of the SIP application to the state and subject to SIP tax treatment; it is only property new to the zone for an SIZ-based project.

The statutory "community service fee" is the one equaling 25 percent of property tax savings, up to a cap of \$0.5 or

ding on rural/urban location. Any other fee d be solely a function of the local SIP he county/city.

Jobs are counted as full-time equivalents (FTEs) based on a work-year of 2,080 hours for the business firm's employees or hires, for whom the firm would have the obligation of paying withholding taxes under Oregon law (ORS chapter 316), regardless of the person's residency in this state. "Taxable income" is the amount that would be used to compute current withholdings of state income taxes.

Exclude anybody working for/as an independent vendor, contractor and so forth, other than a general operator of the entire project. Also, carefully consider what jobs to associate with the project, as distinct from potentially other business firm operations, including those using another SIP exemption. The firm may limit this only to people employed at the same site as project property, or it may include employees working elsewhere at locations within the county or comparable proximity, as the firm deems appropriate. In any case, relevant employees or jobs for purposes of this form must engage in or directly support the project's operations, in that other operations represent not more than 25 percent of the person's time spent performing work.

Newly created jobs are ones, for which the job position opened only since the state SIP application was made, and that still exist in the preceding calendar year. "Actively retained" (preexisting) jobs are those that the firm determines would have definitely been eliminated before the exemption's first tax year if not for re/investment in the SIP project. "Passively retained" refers to such preexisting jobs or positions, for which there is significant probability that they would not have existed at the end of the last applicable tax year were it not for the project.

"Compensation" is calendar-year remuneration that in addition to taxable income comprises financial benefits such as life insurance, medical coverage or retirement plans. Do not include free meals, club membership, workplace amenities, etc., or any benefit mandated by federal, state or local law (e.g., FICA, worker's compensation, unemployment insurance-UI).

Arthur,

Attached is our "2011 Annual Employment Report" for our SIP for the Elkhorn Valley Wind Farm. Elkhorn Valley WF requires three Horizon employees and twelve Vestas employees, a total of fifteen for its operation.

Please send me a return email confirming the receipt of this return.

Please let me know if you have any questions and thanks again for all your help in preparing this return.

Hi Art. Attached are Intel's SIP Annual reports. I'll sign them and fax them over as well, but wanted to be sure you received them. Please let me know if you have any questions.

Best regards,
Morgan
